## Declaration of Conformity

We, the undersigned, declare that

the listed radio frequency transmitters uses the same

- schematic
- assembly
- and PCB

as the radio frequency transmitter S180144014.

They only differ in:

- number and labeling of button caps
- logo of OEM
- Software modification to assign the different function to the dedicated button.
- slight layout modification
- new microcontroller

This modification is mandatory to adapt several carlines.

This modification does not influence the RF performance of the device.
