Declaration of Conformity

We, the undersigned, declare, that

the model M3N-82135300 was modified to model NPEGEN4.
These modifications were necessary to adapt the model to another car line system.

Modifications:

Other digital input/output circuitry,
using a Start Switch Button instead of a Keyless Ignition Node module,
using a low radio frequency antenna coil instead of using a Keyless Ignition Node module with
antenna coil, under using the same amount of low radio frequency antennas for the other passive
entry and start functions.

Protection diode added on an analog output to manage a wake-up request signal to Brake
system ECU.

The communication protocol was not modified.

The modifications do not influence the radio frequency characteristics of the product.
